Press Statement

Kasama Filling Stations operating normally

Thursday, 28th April 2016

Contrary to reports that Kasama has been gripped by a fuel shortage, the Energy Regulation Board (ERB) has established that all four filling stations in the district are operating normally and no site had been shut down.

A survey conducted by the ERB today (28th April 2016), showed that all stations servicing Kasama had fuel and were operating normally. The stations namely Total, Puma, Engen and Sabot, all had both petrol and diesel, while additional stocks for Total were being loaded at the Mpika depot enroute to Kasama.

As such, the ERB would like to reassure motorists that Kasama has adequate fuel stocks and that there is no shortage of fuel to warrant any panic. We have noted with concern that the recurrent speculation about fuel shortages tends to cause unnecessary panic.

In the event of uncertainty about fuel supply in any district, stakeholders are encouraged to either directly engage the concerned Oil Marketing Company or ERB for a correct position.
